

Pump for fresh grapes

Pump for wine

Pumps Delta DP

The Delta DP pump is a peristaltic pump with two functions : pump for fresh grapes and wine.

- . Smooth, continuous transfer of grapes
- . Quality transfer of wine

Description :

Body of pump in stainless steel AISI 304

Hose in food grade material (EPDM)

Motor controlled by variable speed drive to regulate pump flow rate

Pressure gauge to stop the pump in case of overpressure on backpressure

Pressure gauge can be used as safety valve when filling barrels

Technical characteristics

Pumps	Liquid flow rate (m ³ /h)	Auto Start (bar)	Power (kW)	Speed (t/mn)
Delta DP 01	1,5 to 5	-0,7	1,1	30 to 90
Delta DP 02	3 to 7,5	-0,7	1,5	30 to 90
Delta DP 03	5,5 to 17	-0,7	3	30 to 90
Delta DP 04	10 to 35	-0,7	5,5	30 to 90

Options

- . Feeding hopper with auger
