

Vibrating hopper Delta AEV

### **Vibrating hoppers Delta AEV**

#### **Quality reception of your grapes**

The vibrating hopper meets the following requirements :

- . Reception of manually or mechanically harvested grapes
- . Even distribution of grapes without grinding up
- . Efficient draining of free juices

Significant advantages :

- . Mixed input (manually or mechanically harvested)
- . No moving mechanical parts (no screws or conveyors...)
- . No grind up of grapes
- . Guaranteed user safety
- . Guaranteed hygiene and simplified cleaning
- . Less maintenance and mechanical upkeep

#### **Technical characteristics :**

Capacities : 30hl - 40hl - 50hl - 60hl - 80hl - 100hl - 125hl - 150hl

Flow rate : from 2 to 100 t/h according to the models.
