

Flavy MT

Flavy MT

The automatic reverse osmosis unit Flavy OM / XM enables concentration of grape must and wine*.

Automatic, easy to use and particularly compact.

Technical characteristics :

Concentration of all grape must components		Double water flow and low acidity concentration l'acidité	
Models	Average water flow (l/h) **	Modèles	Average water flow (l/h) **
MT O-2	100	MT X-2	200
MT O-4	210	MT X-4	400
MT O-6	310	MT X-6	600
MT O-8	390	MT X-8	800
MT O-10	450	MT X-10	1000
MT O-12	560	MT X-12	1200

* Attention : The wine treatment is not authorized in all countries and regions. For average water flow extracted on wines : please contact us

**Flow for must with 10-11° potential alcohol, at a temperature of 15°C and under 70 bar pressure
