

Bucher JLB 12

### Automated basket presses Bucher JLB 12 and JLB 20

The JLB Automated Press ensures:

- . a full control of pressing cycles via a programmable PLC,
- . an incontestable quality of obtained juices,
- . an easy and fast emptying operation thanks to an automatic demoulding of the press cake after pressing,
- . an effective cleaning for a perfect hygiene,
- . a continuous filling and devating (with 2 pressing cages).

Elements in contact with the grapes or juices are in stainless steel.

### Technical Characteristics

Bucher JLB	Capacity	Filling capacity of fermented pomace* (kg)
12	12 hl	1 200
20	20 hl	2 000

\*For information only (corresponding to 3 000 – 4 400 kg of macerated grapes for the JLB 12 and 5 000 – 7 300 kg for the JLB 20).
